Certus Solutions wins Gold for Cloud Applications (including Fusion) category at UK Oracle User Group Partner of the Year Awards 2015/2016

Certus Solutions is Voted Gold at the Eighth Annual UK Oracle User Group Partner of the Year Awards

15 October, 2015: LONDON: - Certus Solutions has been named winner of the Cloud Applications (including Fusion) category at the eighth annual UK Oracle User Group Partner of the Year Awards. The awards provide recognition to UKOUG Partners for the contribution that they make by offering their services to Oracle users.

The awards were held at the Waldorf Hilton, London on 15 October, 2015 and received over **4600** votes from more than **2300** Oracle end-users around the world. Certus Solutions was named as a winner of the Cloud Applications (including Fusion) category.

Linda Barker, President of UKOUG commented: *“Winning a Partner of the Year Award is a true endorsement of the services the partners provide for the Oracle community. These awards are unique as they are the only awards exclusively voted upon by Oracle end user customers. The awards celebrate the best of the community - the sheer number of high quality entries received this year is a testament to the success of the Oracle partner community. Certus Solutions thoroughly deserved their award win which represents their outstanding success within the Cloud Applications (including Fusion) category”.*

Mark Sweeny, CEO at Certus Solutions said: *“We are honoured to receive the Cloud Applications (including Fusion) award amongst such a strong group of finalists. Certus Solutions are delighted to be recognised as one of the leading partners within the UK Oracle User Group community. Winning the Cloud Applications award and knowing that more than 4600 votes were cast from Oracle customers is a real testament to the support and service Certus Solutions has provided to the Oracle community throughout the past 12 months.”*

About: UK Oracle User Group

UK Oracle User Group (UKOUG) is an independent, not for profit membership organisation created to support Oracle stakeholders. Established over 30 years ago, UKOUG now has over 8,500 member contacts. It leverages on the collective strength of the combined Oracle community, acting as a single independent voice to influence the future design, functionality and technology that is the key to all Oracle users.

UKOUG provides the Oracle community with over 60 events a year across the UK and Ireland to inform and educate its members about Oracle products and new developments. All of its events enable members to network, share knowledge, participate, and feedback to Oracle and meet senior Oracle representatives and other industry leaders. UKOUG conferences are largest collection of independent Oracle events in EMEA.
