Certus Solutions wins Gold for Cloud Applications, Middleware and Digital Transformation at UK Oracle User Group Partner of the Year Awards 2016/2017

Certus Solutions is Voted Gold at the Ninth Annual UK Oracle User Group Partner of the Year Awards

13 October, 2016: LONDON: - Certus Solutions has been named winner of the Cloud Applications, Middleware and Digital Transformation categories at the ninth annual UK Oracle User Group Partner of the Year Awards. The awards provide recognition to UKOUG Partners for the contribution that they make by offering their services to Oracle users.

The awards were held at Café De Paris, London on 13 October, 2016 and received nearly **5000** votes from more than **2800** Oracle end-users around the world. Certus Solutions was named as a winner of the Cloud Applications, Middleware and Digital Transformation categories.

Linda Barker, President of UKOUG commented “We at UKOUG are delighted once again to be hosting the Partner of the Year Awards. These awards recognise the very best of the Oracle partner community, as voted exclusively by Oracle customers. Winning a Partner of the Year Award is an unequalled achievement and a true, independent reflection of exceptional quality within the partner community. Certus Solutions thoroughly deserved their award wins which represents their outstanding success within the Cloud Applications, Middleware and Digital Transformation categories.

Mark Sweeny, CEO at Certus Solutions said, "We are honoured to receive these awards amongst such a strong group of finalists. Certus Solutions are delighted to be recognised as one of the leading partners within the UK Oracle User Group community. Winning the Cloud Applications, Middleware and Digital Transformation awards and knowing that nearly 5000 votes were cast from Oracle customers is a real testament to the support and service Certus Solutions has provided to the Oracle community throughout the past 12 months".

About: UK Oracle User Group

UK Oracle User Group (UKOUG) is an independent, not for profit membership organisation created to support Oracle stakeholders. Established over 30 years ago, UKOUG now has over 8,500 member contacts. It leverages on the collective strength of the combined Oracle community, acting as a single independent voice to influence the future design, functionality and technology that is the key to all Oracle users.

UKOUG provides the Oracle community with over 40 events a year across the UK and Ireland to inform and educate its members about Oracle products and new developments. All of its events enable members to network, share knowledge, participate, and feedback to Oracle and meet senior Oracle representatives and other industry leaders. UKOUG conferences are largest collection of independent Oracle events in EMEA.
